SKILLS

Design
UX/UI, user-centered design, wireframing, interactive prototyping, responsive design, journey mapping

Research
User interviews, usability testing, qualitative analysis, product metrics

Product
Product Owner, Scrum, Agile, backlog management, prioritization by impact and effort

Tools
Figma, Adobe XD, Dovetail, Maze, Useberry, Lovable, Claude Code, Databricks

Front end
HTML, CSS, JavaScript, jQuery

AI
AI-assisted prototyping (vibe coding), building products with AI

EDUCATION

UX/UI Design Bootcamp
BIT – Bogotá Institute of Technology
Sep 2025 – Jan 2026

B.A. Industrial and Product Design
Fundación Universidad de Bogotá
Jorge Tadeo Lozano
2016 – 2019

LANGUAGES

Spanish: native
English: professional working proficiency

PROFESSIONAL SUMMARY

Product Designer UX/UI and Product Owner with 5+ years of experience in digital product design across fintech, proptech and B2B portals. I design fintech digital platforms by combining user research, usability testing, data analysis in Databricks and backlog management to decide what to iterate on first. I work hand in hand with business and engineering teams, and I prototype with Figma and Claude Code to validate ideas faster.

PROFESSIONAL EXPERIENCE

UX Designer (Product Designer / Product Owner) · Skandia Colombia Sep 2022 – Present

- Led user research and needs validation with financial advisors to define the MVP strategy for a digital advisory platform.
- Managed the backlog as Product Owner, prioritizing features by impact and effort.
- Designed flows, wireframes and interactive prototypes in Figma and Claude Code for users with different levels of tech familiarity.
- Ran usability tests with Maze and analyzed findings in Dovetail to identify friction and optimize key flows.
- Analyzed digital experience data in Databricks to identify the most critical pain points and define where to start iterating.
- Worked hand in hand with business and engineering teams to align design decisions with product goals.

UX/UI Designer · Nivelics SAS May 2022 – Jun 2022

- Designed the complete events portal (screens, flows, wireframes and high-fidelity prototypes), creating a clearer, more intuitive experience for internal users.
- Delivered prototypes that shortened development time and made client approval easier.
- Improved the portal's visual structure so key information can be found faster.

UI Designer · Metrocuadrado Jan 2021 – Aug 2022

- Redesigned back-office modules for real estate agencies and construction companies.
- Designed and optimized B2B interfaces focused on reducing operational friction.
- Collaborated with development and product teams to align design decisions with business goals.

Web Designer and Developer · Museo Carmona Sep 2021 – Dec 2021

- Built the museum's official website from scratch with HTML, CSS and JavaScript, without templates: lightweight, responsive and functional.
- Organized the full collection into a navigable digital gallery and structured the artist's information.
- Defined the site's aesthetic and visual narrative together with the museum's owner, strengthening its identity and digital presence.
